Sharing Mapping Data

This policy shall provide for the sharing of information to public safety agencies in order to implement effective emergency response protocols.

Definition. Mapping data means maps relating to the school buildings or school property with data for an efficient emergency response.

Sharing of Mapping Data. Mapping data shall be shared in an electronic or printable format with public safety agencies that provide emergency services to district property to assist those agencies in responding to an emergency on district property.

Requirements Related to Mapping Data. Mapping data shared with public safety agencies pursuant to this policy shall meet the following requirements:

- The mapping data shall be compatible with and able to be integrated into software platforms used by public safety that provide emergency services to the specific school for which the data is provided without requiring:
 - The purchase of additional software by such public safety agencies; or
 - The integration of third-party software to view the data;
- The mapping data shall be a finished map product in a file format easily accessible using a standard or open-source file reader, depending on the needs of the school and the public safety agency;
- The mapping data shall be provided in a printable format;
- The mapping data shall be verified for accuracy, during production and annually, through a walk-through of the school campus;
- The mapping data shall give an indication of what direction is true north;
- The mapping data shall include accurate floor plans overlaid on accurate, verified aerial imagery of the school campus;
- The mapping data shall contain site-specific labeling that matches the structure of school buildings, including room labels, hallway names, external door or stairwell numbers, locations of hazards, key utility locations, key boxes, automated external defibrillators, and trauma kits using standard labeling rules set by the State Department of Education;
- The mapping data shall contain site-specific labeling that matches the school grounds, including parking areas, athletic fields, surrounding roads, and neighboring properties using standard labeling rules set by the State Department of Education; and
- The mapping data shall be overlaid with a grid and coordinates.

Annual Certification or Updates. The district shall annually:

- Certify to the appropriate public safety agencies that the mapping data provided pursuant to this policy is accurate; or
- If such information has changed, provide the appropriate public safety agencies with updated mapping data.

Reimbursement. The Superintendent shall apply to the State Department of Education in the manner prescribed by the Commissioner of Education for a grant to cover the costs of providing payment to vendors on behalf of the school district to facilitate the implementation of mapping data in accordance with this policy. Such application shall include a copy of this school policy, an estimate from a vendor on the cost of providing such mapping data that meets the requirements of this policy, and any other information the department may require. Alternatively, the Superintendent may apply to and contract with the district's educational service unit in the manner prescribed by the educational service unit for purposes of covering the costs of facilitating mapping data in accordance with this policy.
